Biography Anneli Tirud Wallin

My name is Anneli Tirud Wallin and I work as a prosecutor at the National Public Prosecution Department in Stockholm, Sweden. I have worked as a prosecutor since 2003.

I am, and has always been, particularly interested in international questions. I have a university degree in international law aslongside my master exam in Swedish law. During my law studies I spent one semester in Leiden, The Netherlands, studying European law. I have also studied French at La Sorbonne in Paris, France, International Relations and Political Science at, among others, Uppsala University in Sweden. In 2011 I participated in a two week education for European judges and prosecutors in Trier, Germany, arranged by ERA.

On behalf of the Swedish Public Prosecution Authorities I am currently involved in the process of preparing for the FATF-evaluation of Sweden, wich is to take place in 2016. In my current work I handle questions of moneylaundering, organized crime, proceeds of crime and international co-operation on a daily basis.

I am very much looking forward to seeing you all in Zurich.

Best regards,

Anneli Tirud Wallin
